

ISU Senior Design Project Meeting Minutes

Date:	October 4,, 2019
From:	
Subject:	Fairlawn TLC Projects Progress Meeting Notes
	Dial-in Number: +1 (816) 666-7054

Meeting Attendees:

<u>BMcD</u>	
Joey Enright	X
Grant Herrman	X
Peter Jensen	X

<u>ISU</u>	
Kaitlyn Ziska	X
Salvador Salazar-Garcia	X
Robert Huschak	X
Brian Mace	X
Justin Fischbach	X
Brandon Kaas	X
Professor McCalley	X

A summary of the meeting discussion provided below:

1. **Agenda**
 - a. **Autocad Questions on the one-line drawing**
 - b. **Submission questions**

Specific Questions and Answers

Group Question: After evaluating our build can we resubmit our design before Monday to make some corrections that need to be made.
 Answer: You can resubmit before that time and we should have comments for you on it sometime next week for changes

Robert: How do we specify the wiring orientation of the ssvts for the x and y specifications listed in the scope
 Answer: We specify that on the drawing, it does not have a correct or incorrect position, just mark which is which on the drawing

Grant: Looking at the one line you submitted earlier understand that we indicate voltages coming in and out the top and bottom of the relays and currents in and out of the sides. Try to also for cleanliness with wires to avoid them crossing over multiple times.

Please send any corrections or additions to the meeting notes to Bjkaas@iastate.edu
